

Cookie Policy

COOKIES

State Bidco Limited (We) are committed to delivering the best possible service to you and we wish to maintain the confidence that you place in us. This cookie policy explains what cookies are and how we use them on our websites.

What is a cookie?

A cookie is a small text file that is placed on your computer hard drive by a web page server. You will normally see a message on the site before we store a cookie on your computer.

One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the web server that you have returned to a specific page. For example, if you personalise the pages on our site, or register on our site for any services we provide, a cookie helps us to recall your specific information on subsequent visits. When you return to our site the information you previously provided can be retrieved, so you can easily use the features that you previously customised.

Cookies cannot be used to run programs or deliver viruses to your computer. Cookies are uniquely assigned to you and can only be read by a web server in the domain that issued the cookie to you.

Types of Cookies:

Session cookies: Last only for the duration of your visit and are deleted when you close your browser.

Persistent cookies: Last after you have closed your browser and allow a website to remember your actions and preferences. Sometimes persistent cookies are used by websites to provide targeted advertising based upon the browsing history of the device.

First and third party cookies: Whether a cookie is a first or third party cookie depends on which website the cookie comes from. First party cookies are those set by or on behalf of the website visited. All other cookies are third party cookies. We use both first party and third party cookies

Strictly necessary cookies: These cookies are essential in order to enable you to move around the website and use its features. These cookies don't gather information about you for the purposes of marketing.

Performance cookies: These cookies collect information about how visitors use a web site, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor although they may collect the IP address of the device used to access the site. All information these cookies collect is anonymous and is only used to improve how a website works, the user experience and to optimise our advertising. By using our websites, you agree that we can place these types of cookies on your device, however you can block these cookies using your browser settings.

Functionality cookies: These cookies allow the website to remember choices you make (such as your username). The information these cookies collect is anonymised (i.e. it does not contain your name, address etc.) and they do not track your browsing activity across another website.

Targeting cookies: These cookies collect several pieces of information about your browsing habits. They are usually placed by advertising networks. They remember that you have visited a website and this information is shared with other organisations such as media publishers. These organisations do this in order to provide you with targeted adverts more relevant to you and your interests. This type of advertising is called online behavioural advertising and place an icon in the top right hand corner of an advert. This icon when clicked, will take you through to the website Your Online Choices where there is more help and guidance for you to Opt-out of this type of advertising. You can block these cookies using your browser settings.

How do we use cookies?

We use different types of cookies for different things, such as:

- Analysing how users use our website
- Giving you a better, more personalised experience
- Recognising when you have signed in

How can I choose what cookies I want activated?

You have the option to choose what cookies you want to access. On the cookie banner please click on the Cookie Settings button and you can choose whether or not to activate cookies or not. However, be aware that this may affect the performance of the website.

Cookie Policy

Tastecard

Performance			
FIRST PARTY			
Host	Name	Description	Lifespan
.tastecard.co.uk	__utmz	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour measure of site performance. This cookie identifies the source of traffic to the site - so Google Analytics can tell site owners where visitors came from when arriving on the site. The cookie has a life span of 6 months and is updated every time data is sent to Google Analytics.	6 months
.tastecard.co.uk	__utma	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. This cookie lasts for 2 years by default and distinguishes between users and sessions. It used to calculate new and returning visitor statistics. The cookie is updated every time data is sent to Google Analytics. The lifespan of the cookie can be customised by website owners.	2 years
.tastecard.co.uk	__utmt	This cookie is set by Google Analytics. According to their documentation it is used to throttle the request rate for the service - limiting the collection of data on high traffic sites. It expires after 10 minutes	a few seconds
.tastecard.co.uk	__utmc	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. It is not used in most sites but is set to enable interoperability with the older version of Google Analytics code known as Urchin. In this older version this was used in combination with the __utmb cookie to identify new sessions/visits for returning visitors. When used by Google Analytics this is always a Session cookie which is destroyed when the user closes their browser. Where it is seen as a Persistent cookie it is therefore likely to be a different technology setting the cookie.	session
.tastecard.co.uk	__utmb	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. This cookie determines new sessions and visits and expires after 30 minutes. The cookie is updated every time data is sent to Google Analytics. Any activity by a user within the 30 minute life span will count as a single visit, even if the user leaves and then returns to the site. A return after 30 minutes will count as a new visit, but a returning visitor.	a few seconds
.tastecard.co.uk	_ga	This cookie name is associated with Google Universal Analytics - which is a significant update to Google's more commonly used analytics service. This cookie is used to distinguish unique users by assigning a randomly generated number as a client identifier. It is included in each page request in a site and used to calculate visitor, session and campaign data for the sites analytics reports. By default, it is set to expire after 2 years, although this is customisable by website owners.	2 years
.tastecard.co.uk	_gid	This cookie name is associated with Google Universal Analytics. This appears to be a new cookie and as of Spring 2017 no information is available from Google. It appears to store and update a unique value for each page visited.	a day

Cookie Policy

.tastecard.co.uk	_gat	This cookie name is associated with Google Universal Analytics, according to documentation it is used to throttle the request rate - limiting the collection of data on high traffic sites. It expires after 10 minutes.	a few seconds

Cookie Policy

.facebook.com	Datru	This domain is owned by Facebook, which is the world's largest social networking service. As a third party host provider, it mostly collects data on the interests of users via widgets such as the 'Like' button found on many websites. This is used to serve targeted advertising to its users when logged into its services. In 2014 it also started serving up behaviourally targeted advertising on other websites, similar to most dedicated online marketing companies. This cookie identifies the browser connecting to Facebook. It is not directly tied to individual Facebook the user. Facebook reports that it is used to help with security and suspicious login activity, especially around detection of bots trying to access the service. Facebook also say the behavioural profile associated with each data cookie is deleted after 10 days. This cookie is also read via Like and other Facebook buttons and tags placed on many different websites.	2 years
.facebook.com	fr	This domain is owned by Facebook, which is the world's largest social networking service. As a third-party host provider, it mostly collects data on the interests of users via widgets such as the 'Like' button found on many websites. This is used to serve targeted advertising to its users when logged into its services. In 2014 it also started serving up behaviourally targeted advertising on other websites, similar to most dedicated online marketing companies. Contains browser and user unique ID combination, used for targeted advertising.	3 months
.google.co.uk	SAPISID HSID SID PREF NID SSID APISID	This domain is owned by Google Inc and is the company's UK oriented search site. Although Google is primarily known as a search engine, the company provides a diverse range of products and services. Its main source of revenue however is advertising. Google tracks users extensively both through its own products and sites, and the numerous technologies embedded into many millions of websites around the world. It uses the data gathered from most of these services to profile the interests of web users and sell advertising space to organisations based on such interest profiles as well as aligning adverts to the content on the pages where its customer's adverts appear.	2 years

.facebook.com	datr	This domain is owned by Facebook, which is the world's largest social networking service. As a third party host provider, it mostly collects data on the interests of users via widgets such as the 'Like' button found on many websites. This is used to serve targeted advertising to its users when logged into its services. In 2014 it also started serving up behaviourally targeted advertising on other websites, similar to most dedicated online marketing companies. This cookie identifies the browser connecting to Facebook. It is not directly tied to individual Facebook the user. Facebook reports that it is used to help with security and suspicious login activity, especially around detection of bots trying to access the service.	2 years

Cookie Policy

		Facebook also say the behavioural profile associated with each datr cookie is deleted after 10 days. This cookie is also read via Like and other Facebook buttons and tags placed on many different websites.	
.facebook.com	fr	This domain is owned by Facebook, which is the world's largest social networking service. As a third party host provider, it mostly collects data on the interests of users via widgets such as the 'Like' button found on many websites. This is used to serve targeted advertising to its users when logged into its services. How do I control my cookies?

You have the ability control, accept and decline cookies, if you choose to decline cookies; you may not be able to fully experience the interactive features of our site and any preferences will be lost if you delete cookies.

All recent versions of popular browsers give users a level of control over cookies. Users can set their browsers to accept or reject all, or certain, cookies. You should do this through the web browser settings for each web browser you use, and, on each device, you use to access the Internet.

Alternatively, you may wish to visit www.allaboutcookies.org which contains comprehensive information on how to do this on a wider variety of browsers.

To opt out of being tracked by Google Analytics across all websites visit <http://tools.google.com/dlpage/gaoptout>.

To opt-out of website analytics and on-site personalization services provide by Adobe visit <http://www.adobe.com/privacy/opt-out.html>

How the Dining Club Group can change the cookie policy

We regularly review the cookies we use, to continually improve our services to you. Any such changes shall appear here and become effective immediately, you should check this page occasionally to ensure you are familiar with any changes.

We are planning to enhance our cookie tool to allow our customers to easily change their cookie settings after their initial choice.
